

## Home Learning Task

---

1. Watch the videos below (ask your parents/carers to join you)

**Video 1:** [How do autonomous cars work?](#)

**Video 2:** [Computer Science is Changing Everything](#)

**Video 3:** [Using AI to improve the wheelchair users' mobility](#)

2. Write down two things that you learned from the videos about what robots and computers can do.
3. Write down two ways that your parents/carers used computers this week (this includes phones/tablets).
4. Imagine you could teach a robot to do anything you like. What would you teach it to do? How would computing help you do this?
