

# Snap Survey

What do you and your pupils have in common?

## How Snap Survey works

Snap Survey is an evidence-based activity to help tutors and pupils find out what they have in common. It's designed to improve pupil-tutor relationships.

This is the offline version of the activity. To use it, follow these simple steps:

1. In an early tutoring session, discuss the questions in this document with your pupils.

2. If you spot any similarities between you and your pupils, tell them!

3. Use your new knowledge about your pupils to tailor and personalise future lesson content.
