

Snap Survey

What do you and your pupils have in common?

Snap Survey is a short activity to help tutors and pupils find out what they have in common. It has been shown to improve pupils' attendance at National Tutoring Programme sessions.

Impact: Increased Pupil Attendance

+4.2
percentage
points

Pupils attending a 15 hour tuition block attended an additional 0.5 sessions, on average.

Tested with 9,000 pupils and 700 tutors

“When the students feel like we know them a little bit better, they relax, they engage a bit better. That’s all going to have a positive impact on their progress.” (Tutor)

“If we’re talking about structural devices, you go, ‘Well, in that show that you like, the structural feature of this that we’re talking about is used. Do you remember that scene...?’ It makes them more interested in the subject.” (Tutor)

1. What is it?

The activity has three parts:

Snap Survey: What do you and your tutor have in common?

You and your tutor after you've done the activity. It will take about 5 minutes.

1. Tutor & pupil complete online survey

Your results

Thanks for completing the survey! Here are some of the things you and your tutor have in common:

- You both speak French and Spanish
- You listed Maths, English and Science as your favourite subject(s) at school
- If you could go to any sporting event, it would be The World Cup
- You both play an instrument

2. Instant feedback on similarities

Julia

You both speak French and Spanish

You listed Maths, English and Science as your favourite subject(s) at school

If you could go to any sporting event, it would be The World Cup

You both play an instrument

3. Ongoing reminders to tutors

2. What is the evidence?

In a randomised controlled trial involving The Tutor Trust, Schools Partnership Tutors, Manning's Tutors, and Tute, we found that Snap Survey improved pupil attendance at tutoring by **4.2 percentage points**. As a result of the intervention, pupils attending a 15 hour tuition block attended an additional 0.5 sessions, on average.

There is also evidence of promise for Snap Survey improving attendance for **Pupil Premium** pupils.

The full research report can be found [here](#).

3. Sounds great, how do I use it?

Snap Survey is free to use. It has been revised to reflect lessons learned from the trial. An online version is available [here](#), and an offline version is [here](#). There is also a ['how to' guide](#) for tutors, and a [video explanation](#).

For more information... If you have questions or you start using the intervention, we'd love to hear from you.
